Dr Anne Gordon’s publications

Social competence following pediatric stroke: Contributions of brain insult and family environment
Anderson, Vicki; Gomes, Alison; Greenham, Mardee; Hearps, Stephen; Gordon, Anne; Rinehart, Nicole; Gonzalez, Linda; Yeates, Keith; Hadjek, Christine; Lo, Warren; Mackay, Mark
Social Neuroscience 2014;9(5):471-83

Functioning and disability after stroke in children: using the ICF-CY to classify health outcomes and inform future clinical research priorities
Gordon AL
Developmental Medicine & Child Neurology 2014; 56 (5) 434-444

Social competence following neonatal and childhood stroke
Warren Lo, Anne Gordon, Christine Hajek, Alison Gomes, Mardee Greenham, Elizabeth Perkins, Nicholas Zumberge, Vicki Anderson, Keith Owen Yeates, Mark Mackay

Pediatric stroke outcome measure: predictor of multiple impairments in childhood stroke
W. Lo, A. Gordon, C. Hajek, A. Gomes, M. Greenham, V. Anderson, K. Yeates, M. Mackay

Hypertension at time of diagnosis and long-term outcome of childhood ischaemic stroke
Lauren Brush, Paul Monagle, Mark Mackay, Anne Gordon
Neurology. 2013; 80:1225-1230

Good outcome following emergency decompressive craniectomy in a case of malignant middle cerebral artery infarction in a 14-month-old infant
British Journal Of Neurosurgery. 03/2013

Functional impact of sydenham’s Chorea: A Case Report
Hortensia Gimeno, Sinead Barry, Jean-Pierre Lin, Anne Gordon
Tremor and Other Hyperkinetic Movements. 2013;3

Improvement in upper limb function in children with dystonia following deep brain stimulation
Hortensia Gimeno, Daniel Lumsden, Anne Gordon, Kylee Tunstin, Keyoumars Ashkan, Richard Selway, Jean-Pierre Lin

Corticospinal tract integrity and motor function following neonatal stroke: a case study
Gordon AL, Wood A, Tournier D, Hunt RW

Rehabilitation for children following acquired brain injury: current and emerging approaches
Anne L Gordon, Annalisa DiMaggio
Pediatric Neurology, 2012;46 (6) 339-344

Functional Priorities In Daily Life for Children and Young People with Dystonic Movement Disorders and their Families
Gimeno H, Gordon A, Tustin K, Lin JP

Prognostic predictors for outcome after childhood stroke reply
Bernard T, Goldenberg NA, Fullerton HJ, Gordon A, deVeber G

Acute treatment and outcomes of childhood arterial ischemic stroke: findings from the international pediatric stroke study
Lancet Neurology, 2009: 8 (12) 1120-1127

Stroke presenting under 3 hours in patients under 18 years of age
Cassandra Szoeke, Christopher Bladin, Anne Gordon, Mark Mackay

Modified constraint-induced movement therapy after childhood stroke
Gordon Anne, Connelly Alan, Neville Brian, Vargha-Khadem Faraneh, Jessop Nicola, Murphy Tara, Ganesan Vijeya

Neurological and developmental outcome of neonatal jaundice and sepsis in rural kenya
Gordon Anne L, Michael English, J Tumaini Dzombo, Mary Karisa, Charles RJC Newton
Tropical Medicine & International Health, 2005:10 (11), 1114 – 1120

Functional outcome following stroke in childhood
Gordon AL, Ganesan V, Towell T & Kirkham FJ

Outcome after ischaemic stroke in childhood
Ganesan V, Hogan A, Shack N, Gordon A, Isaacs E & Kirkham F

Symptomatic neonatal arterial ischemic stroke: the International Pediatric Stroke Study
Pediatrics. 2011 Dec;128(6):e1402-10

Male predominance in childhood ischemic stroke: findings for the International Pediatric Stroke Study
Male predominance in childhood ischemic stroke: Findings for the International Pediatric Stroke Study
Golomb MR, Fullerton HJ, Nowak-Gottl U, Deveber G; International Pediatric Stroke Study Group
Stroke. 2009 Jan;40(1):52-7

CHAPTER:
Chapter 17 Recurrence, Outcome & Rehabilitation
17. 2 Outcome After Stroke In Childhood
17.6 Rehabilitation After Stroke in Childhood
