

I'm having my hearing checked at the hospital

I will be going to the hospital to have my hearing checked by an Audiologist. A grown up will come with me.

I will go in the lift or
up the stairs to the
Audiology department.

When we get to the 2nd
floor, this is the door
that I will go through to
get into the Audiology
department.

I will go to reception with
my grown up to tell them
that I am here.

Then I will go to the waiting area.

If I have to wait I can play with the toys.

When it is my turn, the Audiologist will call me and I will walk down the corridor to the Audiology room.

This is what the Audiology room looks like.

First, the Audiologist might ask the grown up some questions about my hearing.

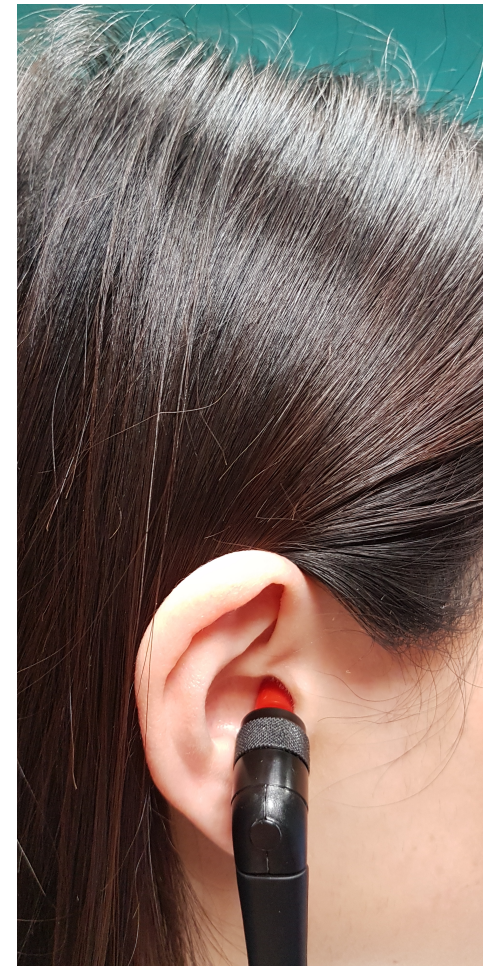

This is the Audiologist's special light.

Next, the Audiologist might look in my ears with a special light.

Then the Audiologist might use this special machine to help my ear to draw a picture

If I sit still, that will help the Audiologist.

I'll sit still again to help the Audiologist.

Then, I might play some listening games.

When I play the games I can help by being quiet so that I can hear the sounds.

Some sounds will be loud.

Some sounds will be quiet.

These are some of the games I might play with the Audiologist to get my hearing checked.

Every time I hear the sound, I can play the game.

When I get my hearing
checked I might wear
headphones like these.

Or headphones
like these.

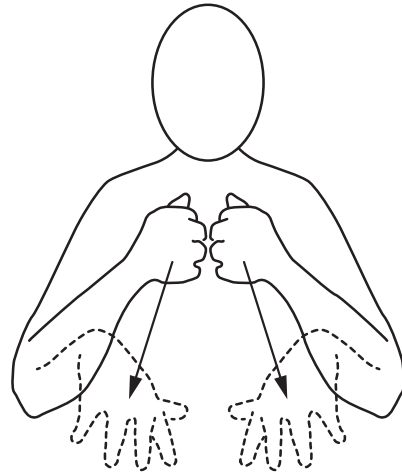

Listen

Listen

Finally the Audiologist
will talk with the grown
up that came with me.

Then it will be time to
leave.

Finished
